Weihan Zhang

Berkeley, CA | weihan_zhang2001@berkeley.edu | Homepage | Google Scholar | GitHub

Education

University of California, Berkeley — Berkeley, CA
M.A. in Biostatistics, Division of Biostatistics — *Aug. 2025–May 2027 (expected)*

Peking University — Beijing, China
B.A. in Political Science, School of Government — *Sept. 2020–July 2025*

University of California, Berkeley — Berkeley, CA
International Visiting Student — *June 2023–May 2024*

Research Interests

Semiparametric theory and method; design-based and (quasi-)randomization inference; distributional and conditional treatment effects.

Publications and Working Papers

1. Zijun Gao and **Weihan Zhang**. "Cubic-Root Gaussian Approximation under Unrestricted Covariance." arXiv preprint, 2026. [arXiv:2608.30221]
2. **Weihan Zhang** and Zijun Gao. "Estimation and Inference for Causal Explainability." *The 5th Conference on Causal Learning and Reasoning (CLeaR)*, 2026. [link]
3. Ye Wang, **Weihan Zhang** and Peng Ding. "A Simple Randomization Test for Interference." Work in progress, 2026.

Talks and Posters

A Simple Randomization Test for the Presence of Interference — 11/2026
Talk and poster at the SC2 Student Conference, Stanford University

A Simple Randomization Test for the Presence of Interference — 11/2026
Poster at the Berkeley Statistics Annual Research Symposium (BSTARS), UC Berkeley

A Simple Randomization Test for Interference — 08/2026
Talk at UC Berkeley Department of Statistics Student Seminar

Estimation and Inference for Causal Explainability — 04/2026
Poster at The 5th Conference on Causal Learning and Reasoning

Teaching Experience

Graduate Student Instructor, School of Public Health, UC Berkeley
PBHLTH 142: Introduction to Probability and Statistics in Biology and Public Health — Fall 2026

Skills

Programming: R, Python, LaTeX
Languages: English, Mandarin Chinese
